	1. Image registration ia marginal distribution adaptation. IEEE Geoscience and Remote Sensing Letters 2021 2. Multimodal image registration using histogram of oriented gradient distance and data-dri en gre olf optimi er. Neurocomputing 2020 3. Registration of multimodal remote sensing images using transfer optimi ation. IEEE Geoscience and Remote Sensing Letters 2020 4. An optimi er ensemble algorithm and its application to image registration. Integrated Computer-Aided Engineering 2019 5. An efficient particle s arm optimi ation for large-scale hard are/soft are co-design. International Journal of Cooperati e Information S stems, 2018
